📅 Date of birth: 03-April-1999

📁 Professional Experience

- **ETHIOPIAN ARTIFICIAL INTELLIGENCE INSTITUTE (2023-PRESENT)**

- **Software Engineer**

Involved in software development, focusing on back-end development using Node.js(Express) and Spring Boot and front-end development using React/NextJs and Angular. And building APIs for the web application project. Kept abreast of emerging web technologies, actively learning and incorporating them into projects.

- **OROMIA BROADCASTING NETWORK (OBN)**

- INTERNSHIP (May 2021 - Aug 2021)
System Administrator and Networking

- **ADAMA SCIENCE AND TECHNOLOGY UNIVERSITY(ASTU)**

- INTERNSHIP (May 2022 - Aug 2022)
Hardware design and software development

🔑 Interests

Software Development | Full Stack | Machine Learning

I'm passionate about Software development and proficient in both front-end, back-end and DevOps technologies. I actively pursue learning opportunities to enhance my skills and remain current with the latest advancements in technology.

🎓 Education

Computer Science and Engineering (CSE)
and
Dual Major Degree in Electronics and Communication Engineering (ECE)
(2018-Aug 2023)

Adama Science and Technology University

CGPA: 3.78/4.0

Major GPA: 3.88/4.0

📁 Projects

- Affordable and Effective Transportation (**Ride Share**)
- Case Flow Management System (**CFMS**)
- AI Based Customs management System (**AIBCMS**)
- AI Agents (**PI**)

💡 Skills

- **Front-end**

- JavaScript
 - React Js
 - Tailwind css
 - Angular
 - NextJs

- **Back End**

- Node.js
 - Laravel
 - SpringBoot

- **Data Base**

- MySQL
 - Postgres
 - MongoDB

- **Devops**

- Docker
 - CI/CD
 - Version Control

🧠 Soft skill

- Team-Work
- Commitment
- Leading
- Problem-Solving

📄 Certificates

- SQL fundamental course(2021)
- Work Readiness Training(2023)
- Bsc Best Department Level Project (2023)
- DDD, Hexagonal Architecture and Tools and Technologies (2024)
- Kifiya AI Mastery Training Program (2024)
